

# To Review and Know

Adv. Web Design I

## Adobe Dreamweaver CS6

### Directions

You are required to create two .html files on any subject you would like which show cases your knowledge on the topics listed below. Between the two pages you must show some kind of proof throughout the pages that you have applied each element/skill set at least once. This is the one assignment you can focus less on design and more on code and Dreamweaver skill sets. Design principles should still be followed and applied.

### Elements/Skills to Apply:

- Setting up a site
- Setting up a page
- Assets Panel
- Library Items and Snippets
- Sprys
- Photoshop Animation
- Search Tags
- Rollover Images
- Image Code in Dreamweaver
- Templates
- Forms (Google Doc & Acrobat.com)
- Z-Index

Element	Possible Points
- All elements and skills are shown through the completion of two pages (use of screen shots may need to be used.)	20
- Completion of 2 .html files	20
- Basic Design/Layout	20
- Effort	20
- Set up of External CSS	20
<b>Total</b>	100
