

Introduction to Web Design

Week Outline, Week #10

General Objectives: (Intro. CSS)

1. Students will be able to explain in a Google Doc and presenting a visual example on the Web of how HTML and CSS work together to build a Web page.
2. Students will understand how tags work in CSS and when and where to apply CSS formatting.
3. Students will be able to write and read basic CSS to format an individual Web page to create a practice Web site.

Tweet of the Week! @LoriCullen19
