

What To Do While Out

iPad Publishing

Friday, November, 30 2012

** Ms. Ruo will be in at the first five minutes of class to distribute iPads and she will be back in during the last 10 to collect the iPads. Only Ms. Ruo is able to distribute and collect iPads (Dominique & Emma can assist.)*

Use today as a work day just like we did on Wednesday...

1. Use your resource files in Adobe Proto and in your Photos to continue to build your six pages in InDesign. Focus on layout, color, text and then images. If you do not have the images available to place in your file move on and I will help you with images upon my return.
2. If you are starting to edit images you may watch the video tutorial posted on my Website called "Removing Image Background." It is a movie reviewing what you learned in class on Wednesday.
3. If you do not know how to perform a task in InDesign that is causing an obstacle for you to create your page, do one of the following: ask another student for help, Google for a video tutorial or move onto another task.
4. If InDesign is frustrating and you are having issues you may work on the content of your pages in a Google Doc.

* Submit Bi-Weekly Blog entry.

* NO PLAYING VIDEO GAMES! If I get any reports of video games being played a written reflection on Project Management will be assigned.

** Keep in mind as I told you the Tech department and myself can see the activity on your computer at any time. You should stay focused on the task at hand because you never know if anyone of us is watching you!*
