Web Design
WHAT TO DO WHILE I AM OUT
April 23, 2013

1. Using the Dreamweaver Handbook as a guide create a page of your own in Dreamweaver. Try to build a "Boston Strong" page with links going to appropriate external sites. You may use any colors you find fitting and include your own text, image and videos. Save the page as bostonstrong.html . When you are finished take a screen shot of the page and share that screen shot with me through a Google Doc. If you need help please feel free to ask other students at your table.

2. You may also use the class time to complete homework assignment #3, which is the Web writing/reading assignment. The directions for the assignment are on the link

* Keep in mind as I told you the Tech department and myself can see the activity on your computer at any time. You should stay focused on the task at hand because you never know if anyone of us is watching you!

NO PLAYING VIDEO GAMES! If I get any reports of video games being played a written reflection on Dreamweaver will be assigned.
