

Web Design
WHAT TO DO WHILE I AM OUT
December 18, 2012

1. Continue to work on your Websites. Your home page should be complete and loaded to the FTP (if you have issues loading to the FTP ask another student or I can help you upon my return.)
2. If you finish your first page continue onto your second. To create your second page you need to open your first page and then go to file --> save as and give the file a new name (name it something relative to what the page is about.) This is the same process for page 2, 3, 4 and 5.
3. You should always having something to do because you need a total of 5 pages on your Website. Each page with an image and a minimum of 1 photo.

* If I receive another unpleasant report expect a reflection assigned for the holiday break!

* *Keep in mind as I told you the Tech department and myself can see the activity on your computer at any time. You should stay focused on the task at hand because you never know if anyone of us is watching you!*

NO PLAYING VIDEO GAMES! If I get any reports of video games being played a written reflection on Dreamweaver will be assigned.
