1

## Web Design & iPad Publishing

- Visit [www.mrscullen.com](http://www.mrscullen.com) and explore through the five main pages: Home, Student Resources (In the Classroom Files, Spring 2014), Classes, Links & About. As you are exploring through the class site try to focus on the following topics:

1. Units Covered
2. Projects
3. Finals Projects
4. Grading
5. Material: Worksheets, Online Assessments, Videos, Blogs...

## Web Design & iPad Publishing

- Meet with the four/five other students at your table and discuss for five minutes what you learned about this course from exploring [www.mrscullen.com](http://www.mrscullen.com). Some starting conversations could be: 1. What units do you think we will cover in this course? 2. What student examples did you find to be the most impressive? 3. Do you like the way in which we will be graded in this class?
- After having a table discussion visually display how your table imagines this course to be run through out the semester. Some topics to visually display: type of work, ways of working, grading, projects, class work, homework, computer applications... (poster paper and markers will be provided by the teacher.)

\* Be Creative! There is no right or wrong way to display your journey on mrscullen.com
