Exploring

- Visit <u>www.mrscullen.com</u> and explore through the five main pages: Home, Student Resources (In the Classroom Files, Spring 2015), Classes, Links & About. As you are exploring through the class site also really pay attention to the links which are connected to the unit which you were assigned:

- 1. Resources used for learning
- 2. Projects
- 3. Assignments
- 4. Assessments
- 5. Videos
- 6. Example work

Creating Table Work

Web Design & iPad Publishing

- Meet with the four/five other students at your table and discuss for five minutes what you learned about this course and your assigned unit from exploring <u>www.mrscullen.com</u>.
 Some starting conversations could be: 1. What final projects do you find in connection to our unit? 2. What student examples did you find to be the most impressive? 3. Do you like the way in which we will be graded in this class for our unit?
- After having a table discussion visually display how your table imagines your unit will be run through out the semester. Some topics to visually display: type of work, ways of working, grading, projects, class work, homework, computer applications... (poster paper and markers will be provided by the teacher.)

* Be Creative! There is no right or wrong way to display your journey on mrscullen.com
