

QWiki.com

Improve the Way People Experience Information

What is QWiki?

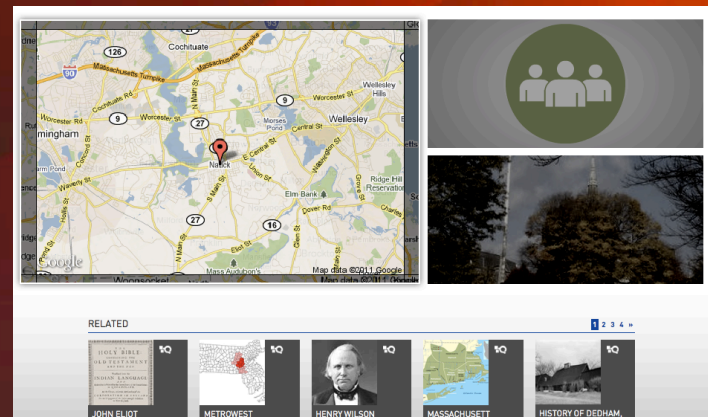

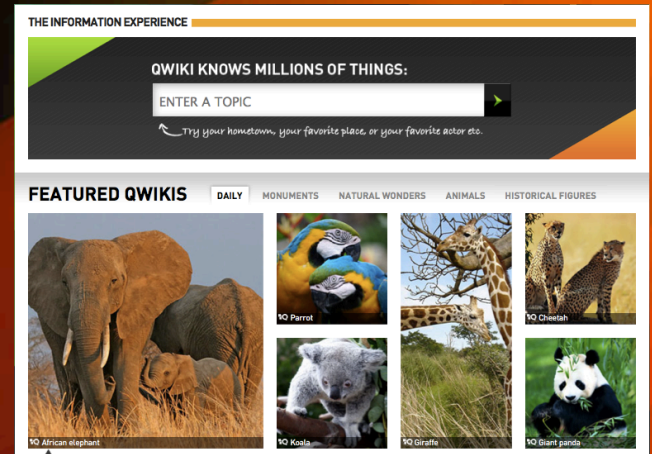

- Results through storytelling rather than search
- To advance information technology to the point it acts human.
- Transfers static information into interactive

What Can You do with a Qwiki?

- You can click on objects within the Qwiki for further interactivity and a more detailed view of the object.
- Browse Maps
- View full videos
- Explore the “Q”

What To Do After Your Done with a Qwiki?

- Replay and Share the Qwiki
- Watch related Qwikis.
- Explore the source pages on: Wikipedia, Google, flickr, and YouTube

Include in the Classroom

- Where is consuming information in an interactive and engaging way most important? **School**
- Students feel empowered of what they learn, and how they learn it.
- Add interactive videos to your lessons; videos which students can watch at home and contribute their own material.
- Assign students to investigate and share Qwikis with others. Great presentation tool.
