3:2:1 Weekly Exit Slips

At the end of every other week you must complete your "Bi-weekly Exit Slip." Create a Google Doc titled "iPad, Exit Slip" and share that document with lcullen@natickps.org . Every other week you must answer the three questions which I will post for that current week. At the end of each exit slip week I will post on the site what I would like you to communicate on the file. Your "Bi-Weekly Exit Slips" will count toward your class participation portion of your grade. (all of the exit slip answers will go on this one Google file)

- Exit Slip #5, Turned in by Friday May 6th
  3: What are three things you have done in this class which you have never done before
  2: Provide two things which you like about this class
  1: In what way did you contribute to class this week?

- Exit Slip #4, Turned in by Thursday, March 24th
  3: Use three words to describe this class.
  2: What are two thing you did in class this week which made you feel accomplished. (example: example: Recreate page, helped others, used the text around tool…)
  1: In what way did you contribute to class this week?

- Exit Slip #3, Turned in by Friday, March 11th
  3: Provide 3 keywords which you learned/used in class this week. (example: kuler, fit content to frame, content grabber…)
  2: What are two ways in which you used the Internet over the week?
  1: In what way did you contribute to the class this week?

- Exit Slip #2, Turned in by Friday, February 26th
  3: Provide three words to describe how you work on computers (example: confident, comfortable, nervous, lost...)
  2: Name two skills you think are the most essential skills to know to be successful when working on computers in school and in a future job?
  1: Name one thing you did over February vacation. (besides sleeping!)

- Exit Slip #1, Turned in by Friday, February 5th
    3: What are three things you are looking forward to doing in this class?
    2: What are two concerns you had coming into this class?
    1: In what way did you contribute to the class this week?
