

# Introduction to Web Design

**Week Outline**  
May 19 - 23, 2014

## **General Objectives:** (Dreamweaver)

1. Students will be able to create a Web page using HTML and CSS in Dreamweaver through comfortably navigating through the Dreamweaver interface.
2. Students will be able to show their understanding of how to publish and maintain a set of web pages through working in the files panel in Dreamweaver.
3. Students will understand how working with raw code in TextEdit transitions into Dreamweaver to make for a more productive work flow when creating Web pages.

- *Discuss Tweet of the week*
