

Introduction to Web Design

Week Outline

May 23 - 27, 2016

General Objectives: (Dreamweaver/Personal Site)

1. Students will be able to create a Web page using HTML and CSS in Dreamweaver through comfortably navigating through the Dreamweaver interface.
2. Students will be able to show their understanding of how to publish and maintain a set of web pages through working in the files panel in Dreamweaver.
3. Students will understand how working with raw code in TextEdit transitions into Dreamweaver to make for a more productive work flow when creating Web pages.

1. Introduction to Dreamweaver (to come!)

- Topics to Cover with Mrs. Cullen: UI, Workspace, Properties Panel, CSS Panel, Body Tag, Page Properties, Connecting to FTP
- Building a Home Page and Side Page

2. Project Management for Personal Site (final project)

- Critique Session with Mrs. Cullen
- Starting to Build
- Review of Rubrics and Due Dates!

* Homework #1: Project Proposal

* No Bi-Weekly Exit Slip or Blog!
