

Intro. Web Design
WHAT TO DO WHILE I AM OUT
Thursday, March 26th (blue day)
& Friday, March 27th (red day)

For any additional instructions on the items listed below see the "Student Resources" page for Intro. Web Design, <http://mrscullen.com/studentresourcesintroweb.html>

1. Design Principles, Pre-Assessment Assignment - Step 3
(directions for this step are provided in the linked assignment and they were provided to you in class prior to me being out)
2. Copyright Worksheet
(directions for this worksheet are provided in the linked assignment and they were provided to you in class prior to me being out)
3. Design Home Page as an Image
- Using the design principles which have been covered in class over the past week create a file/image of what you would like the home page of your own personal Website to look like. I would use the Website in the video we watched in class as a guide. Please pay attention to color choices, font decisions and object placement. You can use filler text from lipsum.com for your content. You can use your own images or for this project only use images from Google. To create this file you can use an application of your choice but I suggest: Photoshop, Pages, Google Draw or Cacao.com

** Keep in mind as I told you the Tech department and myself can see the activity on your computer at any time. You should stay focused on the task at hand because you never know if anyone of us is watching you- do not give of us a reason to have to watch you!*

NO PLAYING VIDEO GAMES! If I get any reports of video games being played a written reflection on the importance of Web sites will be assigned.
