Web Design
WHAT TO DO WHILE I AM OUT
May 16, 2014

1. Priorities to Work on During Class Time
   * For any additional instructions on the items listed below see the week outline or "In the Classroom"

Sophomores:
1. Meet with any Freshman, Junior or Senior in the class to help you set up your root folder (you need to include a css folder with reset.css and an image into the images folder)
2. Once your root folder is set up, watch the video Dreamweaver Video Tutorial #1 by Mrs. Cullen. As you watch the video (on the computer monitor in front of you) do what I am doing in the video in Dreamweaver on your laptop.
3. Blog Entry

Freshman, Juniors & Seniors
1. Open the index file you worked on last class
2. Watch the video Dreamweaver Video Tutorial #2 by Mrs. Cullen. As you watch the video (on the computer monitor in front of you) do what I am doing in the video in Dreamweaver on your laptop.
3. Blog Entry

****If you finish** all of the above challenge yourself by working (or continue to work) on your own page in Dreamweaver.

* Keep in mind as I told you the Tech department and myself can see the activity on your computer at any time. You should stay focused on the task at hand because you never know if anyone of us is watching you- do not give of us a reason to have to watch you!

NO PLAYING VIDEO GAMES! If I get any reports of video games being played an additional written reflection will be assigned.
