## WHAT TO DO WHILE I AM OUT

November 21, 2014

For any additional instructions on the items listed below see the "Student Resources" page for Intro. Web Design

<http://mrscullen.com/studentresourcesintroweb.html>

THE HTML AND CSS UNIT EXAM will be re-scheduled for Tuesday, November 25th (more time to study!)

1. Using the application "Text Edit" on your laptop work on creating a Web page from scratch. The theme of the page will be Thanksgiving. You must use html and set up an external stylesheet named, mystyles.css as well as link to reset.css . I apologize if you already started this on the computer in the classroom but please start it from scratch on your laptop (it always goes by faster the second time around.) If you were using the code from our previous index file for help I linked that code under "Resources While I am Out" on the Student Resources page. (The files which will help you through this process which are linked on my site are: Reset CSS, Skeleton for start of HTML and CSS page, HTML code from cullenlearn, index.html & CSS code from cullenlearn, mystyles.css)

Please help each other out and do not be shy to ask a classmate for help! If part of your code is not working problem solve or move onto building another section of your page. YOU CAN DO IT!!

*\* Keep in mind as I told you the Tech department and myself can see the activity on your computer at any time. You should stay focused on the task at hand because you never know if anyone of us is watching you- do not give us a reason to have to watch you!*

NO PLAYING VIDEO GAMES! If I get any reports of video games being played an additional written reflection will be assigned.
